- Precision Board Plus is newly re-formulated with special Certified Eco-Friendly components. New tighter, finer cell structure. Easier to prime and paint. More chips, less dust. Certified Carbon Footprint of 3:1 and a Certified Rapidly Renewable Content of 23.9%. No VOC's, Non Toxic, Totally Inert, No Carcinogens. Made in USA.
- Two new products to choose from: PBLT for projects curing to 200°F and PBHT for projects curing to 300°F. New color-coded for easy identification.
- Both PBLT & PBHT are non-abrasive and do not outgas or adversely affect prepreg cure.
- Low CTE.
- In house bonding available for any size sheet or custom-size machinable block! Fast turn around!
- Great for machining prototypes, models, composite lay-up tools and vacuum form tools. Many other applications and uses.
- Thirteen densities for different applications, 4 pcf to 70 pcf, in stock for the Prototyping, Tooling, Marine and Signage Industries.
- Large sheets sizes: 20"x60", 24"x60", 30"x80", New! 45"x60", 4'x8', 4'x10', 5'x8', and 5'x10'. Any thickness up to 24" thick.
- Companion Products – Primers, Adhesives, and Specialty Coatings. Technical help always included. Training videos for all products on website.
- Great Technical Department.
- Fast turn around for shipping. Coastal keeps large inventory.
- Top fire ratings and toxicological report in writing.

Call with any technical questions, request a sample package, or for any other reason. We really do appreciate hearing from you!
