Precision Board Plus

High Density Urethane (HDU)

Features & Benefits Signage Applications

Our New Precision Board Plus will have you seeing Green!

- Precision Board Plus is newly re-formulated with special Certified Eco-Friendly components. New tighter, finer cell structure. Easier to prime and paint. More chips, less dust. Certified Carbon Footprint of 3:1 and a Certified Rapidly Renewable Content of 23.9%. No VOC's, Non Toxic, Totally Inert, No Carcinogens. Made in USA.
- Written Life of the Sign Warranty – No other HDU has one.
- Thirteen densities for different applications, 4 to 70 lbs/ft³ in stock for the Signage, Prototyping, Tooling, and Marine Industries.
- Large sheets sizes. 20" x60", 24" x60", 30" x80", NEW 45" x60", 4' x8', 4' x10', 5' x8' and 5' x10'. Any thickness up to 24" thick.
- Companion Products – Primers, Adhesives, and Specialty Coatings. Technical help always included.
- Free instructional videos on all companion products at <http://www.precisionboard.com>.
- Great Technical Department – Sales personnel and customers can call anytime.
- Fast turn around for shipping. Coastal keeps large inventory.
- Custom in-house bonding of larger sheets and carving blocks.
- Top fire ratings and toxicological report, in writing, for Building Inspectors.

Call for any technical questions, request a sample package, or for any other reason. We really do like to hear from you.
