As with all of our Companion Products, PB Fast Set has been specifically formulated to meet the needs of sign makers working with Precision Board Plus HDU. A versatile one-part, urethane adhesive that is ready to use right out of the container (no mixing), PB Fast Set will find many uses around your workshop.

Use it to laminate Precision Board Plus sheets to increase thickness or to edge bond them to increase length. PB Fast Set fully cures in 30 minutes, so it is ideal for quickly building three dimensional structures for subsequent routing, blasting or carving.

Great for both interior and exterior applications, PB Fast Set also works well on wood, metal and most other materials.

With plenty of PB Fast Set on hand, you'll quickly see that pile of scrap HDU turn into "inventory."

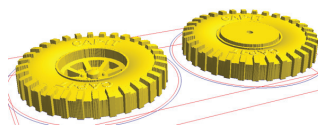

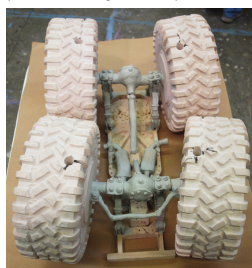

For detailed use and application instructions, refer to our PB Fast Set Adhesive Product Data Sheet.

## More Detail + Higher Density = Greater Profits

Offering a sign made of 30 lb. Precision Board Plus instead of 15 lb. is great way to increase profits. The denser material machines as easily, yet generally requires less priming and sanding. And since the material cost is only roughly 10-15% of the cost of a sign,

Dan Sawatzky's Truck Tire  
(see Dan's Blog for more).

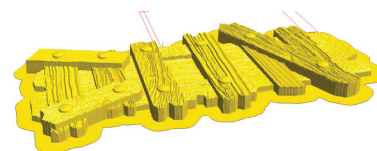

the added value of a 30 lb. Precision Board Plus sign (and therefore the price you charge) exceeds your investment and puts more money in your pocket.

Complex Relief: Wood Grain Sign By Dan Sawatzky (see Dan's Blog for more).

Your distributor doesn't stock higher densities? No problem. Your distributor doesn't want to miss a sale and neither do we. We keep all Precision Board Plus densities in stock and will gladly ship directly to you and handle the invoice through your distributor. For help with your quote, call us at 800-845-0745.

Call (800) 845-0745 or visit  
[www.PrecisionBoard.com](http://www.PrecisionBoard.com) for a

## Interested in Having Your Company Featured in Our Newsletter?

You may have noticed we like to share interesting stories from our customers about their projects using Precision Board Plus. If you would like us to feature your company in one of these stories, we want to hear from you.

### Here's what we're looking for:

- *In process photos working with Precision Board Plus*
- *Finished project photos*
- *Advice for those who are new to Precision Board Plus*
- *Tips for working with HDU*

Send us an e-mail at [hdu@precisionboard.com](mailto:hdu@precisionboard.com) along with any interesting details about the project.

These newsletters are sent to thousands of our customers and are a great way to build recognition for your company and share your expertise.

## Certified Green

Precision Board Plus has been reformulated with eco-friendly, "Green" urethane components. The new Plus formulation has achieved a certified "Carbon Balance" of 3 to 1 and a "Rapidly Renewable Resource Content" of 18.9%. This major environmental improvement has also produced a tighter cell structure which results in more chips and less dust when cutting and machining.

Precision Board Plus now assists in meeting LEED requirements for obtaining USGBC and ICC 700 Building Credits.

*Coastal Enterprises also offers a complete line of companion primers, adhesives and specialty coating products.*

Call (800) 845-0745 or visit [www.PrecisionBoard.com](http://www.PrecisionBoard.com)  
for a **FREE** sample of Precision Board Plus.
