## A guy named Guy (pronounced "Gee") and a Robot named Marie

His name is Guy Martin. He is SCI-Arc trained (Southern California Institute of Architecture) and considers himself a Digital Architect. His partner is a robot named Marie with an 80' reach and together they've fabricated complex composite creations for clients as varied as designer Philippe Starck, and the pioneering private space transport company, Space X.

At their facility in Southern California, Guy Martin Design is leveraging digital technology to explore new processes for creating complex forms and compound geometries with the latest composite materials. For Guy, it's about getting closer to the means of production and the materials, in essence taking back some of the control the craft of architecture had when he was the master mason.

To learn more about Guy Martin and his work, see his interview in [MetropolisMag.com](http://MetropolisMag.com) or visit [GuyMartinDesign.com](http://GuyMartinDesign.com).

# PRECISION BOARD PLUS

## Precision Matched for Your HDU Needs

### Widest Range of Densities Available

4 through 60 pound densities all in stock, with custom densities on request.

### Any Thickness You Require

From 1/4" to 24" and everything in between.

### WIDEST VARIETY OF SHEET SIZES AVAILABLE

- 20"x60"
- 45"x60" **NEW**
- 5'x8'
- 24"x60"
- 4'x8'
- 5'x10'
- 30"x80"
- 4'x10'

**ALL IN STOCK AND  
READY TO SHIP**

## Interested in Having Your Company Featured in Our Newsletter?

You may have noticed we like to share interesting stories from our customers about their projects using Precision Board Plus. If you would like us to feature your company in one of these stories, we want to hear from you.

### Here's what we're looking for:

- *In process photos working with Precision Board Plus*
- *Finished project photos*
- *Advice for those who are new to Precision Board Plus*
- *Tips for working with HDU*

Send us an e-mail at [hdu@precisionboard.com](mailto:hdu@precisionboard.com) along with any interesting details about the project.

These newsletters are sent to thousands of our customers and are a great way to build recognition for your company and share your expertise.

## Certified Green

Precision Board Plus has been reformulated with eco-friendly, "Green" urethane components. The new Plus formulation has achieved a certified "Carbon Balance" of 3 to 1 and a "Rapidly Renewable Resource Content" of 18.9%. This major environmental improvement has also produced a tighter cell structure which results in more chips and less dust when cutting and machining.

Precision Board Plus now assists in meeting LEED requirements for obtaining USGBC and ICC 700 Building Credits.

*Coastal Enterprises also offers a complete line of companion primers, adhesives and specialty coating products.*

Call (800) 845-0745 or visit [www.PrecisionBoard.com](http://www.PrecisionBoard.com)  
for a **FREE** sample of Precision Board Plus.
