Thermoformed Plastic Products

Thermoformed Plastic Products, located in the Air Capital of the World, manufactures Vacuum Form tools, Master models, CNC holding fixtures, Composite Layup molds and other tooling for many of the well-known aerospace companies. TPP chooses Precision Board Plus and Coastal Enterprises to help them get the job done efficiently and on time. "At TPP, we like turnkey. We can order a custom-bonded block, or just order a block large enough, that we don't have to take time to bond up large shapes before starting the machining operation," says co-owner Chet Hunter.

Ordering ready-to-machine, custom blocks and large sizes is just one reason why TTP chooses Precision Board Plus as Chet adds "Precision Board Plus is always available in a broad array of sizes, quick to machine, and easier to seal than other substrates." Call Thermoformed Plastic Products for your next fixture, model, or tooling needs at (316) 841-8398 or (316) 214-9623.

Interested in Having Your Company Featured in Our Newsletter?

You may have noticed we like to share interesting stories from our customers about their projects using Precision Board Plus. If you would like us to feature your company in one of these stories, we want to hear from you.

Here's what we're looking for:

- *In process photos working with Precision Board Plus*
- *Finished project photos*
- *Advice for those who are new to Precision Board Plus*
- *Tips for working with HDU*

Send us an e-mail at hdu@precisionboard.com along with any interesting details about the project.

These newsletters are sent to thousands of our customers and are a great way to build recognition for your company and share your expertise.

Certified Green

Precision Board Plus has been reformulated with eco-friendly, "Green" urethane components. The new Plus formulation has achieved a certified "Carbon Balance" of 3 to 1 and a "Rapidly Renewable Resource Content" of 18.9%. This major environmental improvement has also produced a tighter cell structure which results in more chips and less dust when cutting and machining.

Precision Board Plus now assists in meeting LEED requirements for obtaining USGBC and ICC 700 Building Credits.

Coastal Enterprises also offers a complete line of companion primers, adhesives and specialty coating products.

Call (800) 845-0745 or visit www.PrecisionBoard.com
for a **FREE** sample of Precision Board Plus.
