PRECISION BOARD PLUS HDU

**"These Guys
Have
the Skills"**

Sierra Technical Services Engineering and Composite Tooling Services For Your Project

Sierra Technical Services, or STS, located in the heart of the Antelope Valley can give you the composite tooling and engineering help you need. With over 30 years of experience, specializing in the manufacturing of composite tooling and structures, and aerospace engineering services, STS will help you get to your desired solution quickly and economically.

Their composite manufacturing services include mold fabrication, Nomex honeycomb core, and fiberglass and graphite composites. Roger Hayes, at STS, uses **Precision Board Plus** for his composite mold fabrication because of its ease of use, large sheets and blocks readily available, and the technical assistance he gets from **Coastal Enterprises**. "Precision Board Plus, in either the PBLT or PBHT, is delivered in large standard sizes, up to 5' x 10', ready to machine on our CMS Aeris 5-Axis, High-Speed Machining Center. This is a great advantage that saves us time and money compared to bonding multiple boards from another manufacturer."

Their group of hand-selected engineering talent, who specialize in everything from aerodynamics, mechanical design, tooling, and more, will provide you with engineering services at their facility or yours. Combine the experienced group of engineers with their quick-paced manufacturing services, made possible with the help

of Coastal Enterprises, Sierra Technical Services will help you get your engineering and tooling needs done as efficiently as possible.

Visit Sierra Technical Services' website at: sierratechnicalservices.com, or call them at 661-824-3992, to see additional work and how they can help you.

Space X Dragon Capsule

A 360° View From Inside

SpaceX, or Space Exploration Technologies Corporation, posted a tweet about their innovative space capsule known as **Dragon**. It is a free-flying reusable spacecraft made up of a pressurized capsule and unpressurized trunk used for Earth to Low Earth Orbit transport of cargo and/or crew members. Check out an amazing 360° view of the interior of Dragon at www.spacex.com/panorama/

Interested in Having Your Company Featured in Our Newsletter?

You may have noticed we like to share interesting stories from our customers about their projects using Precision Board Plus. If you would like us to feature your company in one of these stories, we want to hear from you.

Here's what we're looking for:

- In process photos working with Precision Board Plus
- Finished project photos
- Advice for those who are new to Precision Board Plus
- Tips for working with HDU

Send us an e-mail at hdu@precisionboard.com along with any interesting details about the project.

These newsletters are sent to thousands of our customers and are a great way to build recognition for your company and share your expertise.

Certified Green

Precision Board Plus has been reformulated with eco-friendly, "Green" urethane components. The new Plus formulation has achieved a certified "Carbon Balance" of 3 to 1 and a "Rapidly Renewable Resource Content" of 23.9%. This major environmental improvement has also produced a tighter cell structure which results in more chips and less dust when cutting and machining.

Precision Board Plus now assists in meeting LEED requirements for obtaining USGBC and ICC 700 Building Credits.

Coastal Enterprises also offers a complete line of companion primers, adhesives and specialty coating products.

Call (800) 845-0745 or visit www.PrecisionBoard.com
for a **FREE** sample of Precision Board Plus.
