Precision Board

High Density Urethane (HDU)

Features & Benefits

Tooling & Industrial Applications

- Sixteen densities for different applications, 4 to 75 lbs./ft³ for the Signage, Tooling, Marine, Prototyping, Aerospace and Automotive Industries.
- Large selection sheets sizes: 20"x60", 24"x60", 30"x80", 48"x60", 4'x8', 4'x10', 5'x8', and 5'x10'. All available in many thicknesses from ½" up to 24" thick.
- Two products to choose from: PBLT for curing to **200°F** and PBHT for curing to **300°F**.
- Both PBLT & PBHT are non-abrasive, do not outgas, and will not adversely affect prepreg cure. Low CTE.
- Custom in-house bonding available for any size sheet/block or near net shape step-tool.
- Precision Board is Eco-Friendly, Certified Green. Now with tighter, finer cell structure. It's easier to prime and paint. More chips and low to no dust. Carbon footprint of 3:1, Rapidly Renewable Resource Content of 23.9%. No VOC's, non toxic, totally inert, no carcinogens. Made in USA.
- "Low to No Dust" CNC machining. See Onsrud Router Bit Selector Guide for chip loads, speeds and feeds settings.
- Great for machining prototypes, models, composite lay-up tools, vacuum form tools and for tool proofing. Can be used in other applications.
- Companion Products – Primers, Adhesives, and Specialty Coatings. Instructional videos on our companion products at www.precisionboard.com or the Precision Board Mobile App.
- Fast turn-around for shipping. Coastal keeps a large inventory.
- Great Technical Department – Sales personnel and customers can call anytime.
- Fire ratings and toxicological report in writing.
- Precision Board Mobile App. Get instant access to Precision Board info, technical data, videos, and more with the Precision Board Mobile App. The first and only mobile app for high-density urethane signage and tooling applications. Available for iOS and Android devices, visit Google Play or the App store on your tablet or mobile device for a free download!

Call with any technical questions, request a sample package, or for any other reason.
We would really like to hear from you.

Remember to ask for Precision Board by name. Be Precision Board specific.
