# Precision Board

## High Density Urethane (HDU)

## Features & Benefits

### Signage Applications

Signage

- Sixteen densities for different applications, 4 to 75 lbs./ft<sup>3</sup> for the Signage, Tooling, Marine, Prototyping, Aerospace and Automotive Industries.
- Large selection of sheets sizes. 20"x60", 24"x60", 30"x80", 48"x60", 4'x 8', 4'x10', 5'x8' and 5'x10'. All available in any thicknesses available from 1/2" up to 24" thick.
- Custom in-house bonding of larger sheets, step tools and carving blocks. See the Precision Board Mobile app or our website at [www.precisionboard.com](http://www.precisionboard.com) for more information.
- "Low to No Dust" CNC machining. See Onsrud Router Bit Selector Guide on our website for recommended speeds and feeds settings.
- Companion Products – Primers, Adhesives, and Coatings. Instructional videos on companion products can be found at [www.precisionboard.com](http://www.precisionboard.com), or the Precision Board Mobile App.
- Precision Board is Eco-Friendly, Certified Green. Now with tighter, finer cell structure. It's easier to prime and paint. More chips, and low to no dust. Carbon footprint of 3:1, Rapidly Renewable Resource Content of 23.9%. No VOC's, nontoxic, totally inert, no carcinogens. Made in USA.
- Fire ratings and toxicological report, available in writing.
- Fast turnaround for shipping. Coastal keeps a large inventory.
- Written Life of the Sign Warranty.
- Great Technical Department – Sales personnel and customers can call anytime.
- Precision Board App. Get instant access to Precision Board info, technical data, videos, and more with the Precision Board Mobile App: The first and only mobile app for high-density urethane signage and tooling applications. Available for iOS and Android devices, visit Google Play or the App Store on your tablet or mobile device for a [free download!](#)

Call with any technical questions, request a sample package, or for any other reason.  
We really would like to hear from you.

**Remember to ask for Precision Board by name. Be Precision Board specific.**
